### LEGISLATIVE COUNSEL'S DIGEST

AB 1389, as amended, Ridley-Thomas. ~~Public utilities: rights and obligations: Utilities Commission: reports: hiring: purchases of goods and services capital investment.~~

~~(1) Under~~

~~Under existing law, the Public Utilities Commission has regulatory authority over public utilities. The Public Utilities Act establishes the rights and obligations of public utilities under the jurisdiction of the commission. Existing law establishes the rights and obligations of utility corporations and their employees, and requires each electrical, gas, and telephone corporation with specified gross annual revenues, to submit annually to the commission, a detailed and verifiable plan for increasing women, minority, and disabled veteran business enterprise procurement, requires the commission to establish guidelines to be used to establish programs to achieve established goals in those plans, and~~

~~requires the commission to annually report to the Legislature on progress under these programs.~~

~~This bill would provide that it is the policy of California, consistent with constitutional requirements, that the state, when exercising its proprietary role as a purchaser of goods and services from public utilities, act to promote the employment of California residents. The bill would require the commission to annually report certain information on each public utility to the Assembly Committee on Utilities and Commerce and the Senate Committee on Energy, Utilities and Communications, or successor committees, and to make the information available to the public on its Internet Web site.~~

~~(2) Existing law provides for acquisition of telecommunications goods and services by the state under the supervision of, the Department of General Services, which has sole responsibility for the establishment of tactical policy and procedures for telecommunications and data-processing acquisitions consistent with statewide strategic policy as established by the Department of Finance.~~

~~This bill would provide that it is the policy of the state, consistent with constitutional requirements, when purchasing telecommunications goods and services, to act to promote the employment of California residents.~~

~~Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.~~
